

Item	Explanation
Header Bar	Geographic segment of project area
Resource Action Number	Use a logical numbering sequence to track Resource Actions
Interest	<b>Can be multiple</b> , and may be tied to resource goals (Terry uses this column to ID project impact that the resource action would address)
Description	Describe proposed Resource Action
P/M/E	X for P or M, insert E for enhancement: to be completed after studies completed
Local or Tourist Priority	Local=mostly local use; medium=equal local and tourist; tourist=mostly tourist
Flow Related	X if Resource Action is tied to flow, flow pattern, flow magnitude, flow changes
Construction	X if construction required
O&M	If there will be continuing or annual operations and maintenance costs, 1 = one time; 0 = ongoing
Enforcement	<b>Not clear what information this category provides for evaluation purposes</b>
Environ. Documentation	X if it requires environmental permits - later we'll add which specific permits will be needed
Potential X-Resource Impacts	Using the following code, indicate any potential conflicts with other resources: CR=Cultural; E=Environmental; LU=Land Use; EO=Engineering and Operations
Potential User Conflict	Potential of causing or exacerbating safety issues or any other conflicts among existing recreation users. Use High, Medium and Low and identify the likely user groups involved in the comments box.
Acquisition/Easement	X if additional land or easement (outside of the existing Project Boundary) would be necessary for the Resource Action. No X in this column means the Resource Action is within the Project Boundary.
Revenue Generating	X if this Resource Action represents a potential fee-based action
Consistent with existing zoning/regulations	X if implementation requires a change to existing zoning or regulations (General plans, Management plans, etc.)
Change experience/ expectation	Potential of causing any adverse effect on existing recreation facilities and opportunities. Use High, Medium and Low.
Related to existing facilities	X if Resource Action is related to an existing recreation facility
Partnering/Investment	M= opportunity for multi-agency partnering, P=private investment (e.g.concessionaires)
Conflict with Existing Private Economic Enterprises	X if Resource Action has potential to adversely impact existing local, private enterprise (e.g. direct competition).
Costs	Identify estimated cost range for Resource Action, including construction costs, operations and maintenance (for example, less than \$500k; \$10-12 million, etc.)
Comment	General comments include x-resource issues
